

Transform obsolete concrete shed base to outdoor yoga/fitness mat

Project Description:

- Our client requested to transform an un-used shed base outside their home gym into an outdoors yoga area.
- All debris and leaves were cleared, concrete cleaned and broken plastic storage disposed of.
- Rubber play tiles were laid onto the base contained within a timber framework varnished to match existing timber building.
- A 2m tall bamboo screen was erected around the perimeter back & sides for privacy & and 500mm boarder to separate the tiles and screening was filled with a bright purple rubber bark.
